

SHIVANSHU MISHRA

Machine Learning Engineer | Data Analyst | AI/ML Intern Candidate

Lucknow, India | Shivanshamishra1707@gmail.com | +91 9555801872 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Machine Learning Engineer and Data Analyst with hands-on experience building production-ready AI systems using Python, RAG, LangChain, OpenAI GPT-4, and FAISS. Delivered 85-90% model accuracy, processed 50,000+ data points, and cut manual effort by 70% through AI automation and NLP. Skilled in end-to-end ML pipelines, EDA, feature engineering, predictive modeling, and deploying scalable apps with Streamlit and FastAPI. Seeking an AI/ML Engineer or Data Science Intern role to deliver measurable business impact through applied AI.

TECHNICAL SKILLS

- Programming Languages: Python, C, C++, SQL
- Machine Learning & AI: Scikit-learn, TensorFlow, LangChain, RAG, FAISS, OpenAI GPT-4, Google Gemini API, NLP, Neural Networks, Deep Learning, Feature Engineering, Predictive Modeling, Model Evaluation
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, EDA, Statistical Analysis, Power BI, Advanced Excel, Dashboard Creation
- Tools, Frameworks & Databases: MySQL, PostgreSQL, SQLite, FastAPI, Streamlit, Git, GitHub, Jupyter Notebook, VS Code, Google Colab, Kaggle

PROFESSIONAL EXPERIENCE

Data Science and AI Intern — Grastech

June 2026 - July 2026

- Developed and enhanced an ML- and NLP-based chatbot by contributing to conversational design, model integration, and response-accuracy improvements as part of the Data Science and AI team.
- Collaborated cross-functionally on data preprocessing, model experimentation, and testing, improving chatbot performance and reliability.
- Applied Python and NLP techniques to iterate on model responses, supporting measurable gains in conversational accuracy.

PROJECTS

WhatsApp Chat Analyzer

2024

Python, Pandas, Streamlit, NLP, Matplotlib, Seaborn, Regex

- Built a full-stack Streamlit web application analyzing 50,000+ exported WhatsApp messages with 95%+ parsing accuracy using a custom Regex-based chat extraction pipeline; supported group chats with 100+ participants.
- Applied NLP techniques for word frequency analysis, sentiment scoring, and common word detection; generated 10+ analytical insights including activity heatmaps, emoji usage statistics, and monthly/daily trend visualizations.

YouTube Video AI Summarizer

2024

Python, Streamlit, Google Gemini API, YouTube Transcript API, NLP, Pandas

- Built a Streamlit app that extracts YouTube transcripts via the YouTube Transcript API and generates concise, context-aware summaries using the Google Gemini API, applying NLP and Pandas to structure transcript data and cut manual video-watching time.

Student Performance Prediction

2024

Python, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, XGBoost

- Performed EDA and feature engineering on student academic datasets using Pandas, NumPy, Matplotlib, and Seaborn; built and benchmarked predictive models with Scikit-learn and XGBoost to forecast performance and identify the best-performing algorithm.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering (AI)

2023 - 2027

Babu Banarasi Das University, Lucknow | CGPA: 7.0

- Relevant Coursework: Data Structures & Algorithms, DBMS, Machine Learning, Operating Systems, Computer Networks, Artificial Intelligence, Statistics & Probability

CERTIFICATIONS

- Oracle Cloud Infrastructure Certified AI Foundations Associate — Oracle (2024)
- Deloitte Cyber Job Simulation — Deloitte (2024)
- Power BI Workshop Certification — OfficeMaster (2024) | Languages: Hindi (Native), English (Professional Working Proficiency)
